**INFORMATION ABOUT THE ANNUAL MEETING AND VOTING**

**Q: Why did you send me this Proxy Statement?**

**A:** We sent you this Proxy Statement and the enclosed proxy card because the board of directors of the Company (the “Board” or the “Board of Directors”) is soliciting your proxy to vote at the 2004 Annual Meeting of Shareholders (the “Annual Meeting”). The Annual Meeting will be held at the Meydenbauer Center, 11100 NE 6<sup>th</sup> Street, Bellevue, Washington on June 9, 2004, at 9:00 a.m.

This Proxy Statement summarizes the information regarding the matters to be voted upon at the Annual Meeting. You do not need to attend the Annual Meeting, however, to vote your shares. You may simply complete, sign, and return the enclosed proxy card or vote your shares by telephone or over the Internet in accordance with the instructions contained on the proxy card.

On April 23, 2004, our “record date” for determining shareholders entitled to vote at the Annual Meeting, there were 21,495,939 shares of common stock of the Company outstanding. If you owned shares of our common stock at the close of business on the record date, you are entitled to one vote for each share of common stock you owned as of that date. We began mailing this Proxy Statement on or about April 29, 2004 to all shareholders entitled to vote their shares at the Annual Meeting.

**Q: How many votes do I have?**

**A:** You have one vote for each share of common stock that you owned on the record date. The proxy card will indicate the number of shares.

**Q: How do I vote by proxy?**

**A:** If you properly cast your vote by either executing and returning the enclosed proxy card or by voting your proxy by telephone or via the Internet, and your vote is not subsequently revoked by you, your vote will be voted in accordance with your instructions. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the Board “FOR” electing all eight nominees for Director.

If any other matter is presented, your proxy will vote in accordance with his best judgment. At the time we printed this Proxy Statement, we knew of no matters that needed to be acted on at the Annual Meeting other than those discussed in this Proxy Statement.

**Q: May my broker vote for me?**

**A:** Under the rules of the National Association of Securities Dealers, if your broker holds your shares in its “street” name, the broker may vote your shares on routine matters even if it does not receive instructions from you. At the Annual Meeting your broker may, without instructions from you, vote on the proposal to elect directors.

**Q: What are abstentions and broker non-votes?**

**A:** An abstention represents the action by a shareholder to refrain from voting “for” or “against” a proposal. “Broker non-votes” represent votes that could have been cast on a particular matter by a broker, as a shareholder of record, but that were not cast because the broker (i) lacked discretionary voting authority on the matter and did not receive voting instructions from the beneficial owner of the shares, or (ii) had discretionary voting authority but nevertheless refrained from voting on the matter.

---

## Table of Contents

**Q: May I revoke my proxy?**

**A:** Yes. You may change your mind after you send in your proxy card or vote your shares by telephone, via the Internet or at the Annual Meeting by following these procedures. To revoke your proxy:

- Send in another signed proxy card with a later date;
- Send a letter revoking your proxy to Microvision's Secretary at the Company's offices in Bothell, Washington;
- Vote again by telephone or Internet; or
- Attend the Annual Meeting and vote in person.

**Q: How do I vote in person?**

**A:** If you plan to attend the Annual Meeting and vote in person, we will give you a ballot when you arrive. If your shares are held in the name of your broker, bank, or other nominee, you must bring an account statement or letter from that broker, bank, or nominee. The account statement or letter must show that you were the direct or indirect beneficial owner of the shares on April 23, 2004, the record date for voting. Alternatively, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

**Q: What is the quorum requirement for the meeting?**

**A:** The quorum requirement for holding the meeting and transacting business is a majority of the outstanding shares entitled to be voted. The shares may be present in person or represented by proxy at the meeting. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

**Q: What vote is required to approve the election of directors?**

**A:** The eight nominees for director who receive the most votes will be elected. So, if you do not vote for a nominee, or you "withhold authority to vote" for a nominee, your vote will not count either "for" or "against" the nominee. Abstentions and "broker non-votes" will have no effect on the outcome of voting for directors.

**Q: Is voting confidential?**

**A:** We keep all the proxies and ballots private as a matter of practice.

**Q: What are the costs of soliciting these proxies?**

**A:** The Company will pay all the costs of soliciting these proxies. In addition to the solicitation of proxies by mail, our officers and employees also may solicit proxies by telephone, fax or other electronic means of communication, or in person. We will reimburse banks, brokers, nominees, and other fiduciaries for the expenses they incur in forwarding the proxy materials to you.

**Q: Who should I call if I have any questions?**

**A:** If you have any questions about the Annual Meeting, voting or your ownership of Microvision common stock, please call us at (425) 415-6847 or send an e-mail to [ir@microvision.com](mailto:ir@microvision.com).

**DISCUSSION OF PROPOSALS RECOMMENDED BY THE BOARD**

**Proposal—Election Of Directors**

The Board of Directors oversees our business and affairs and monitors the performance of management. In accordance with corporate governance principles, the Board does not involve itself in day-to-day operations of the Company. The directors keep themselves informed through discussions with the Chief Executive Officer, other key executives, and our principal advisers by reading the reports and other materials that we send them regularly and by participating in Board and committee meetings. Our directors hold office until their successors have been elected and duly qualified unless the director resigns or by reason of death or other cause is unable to serve.

In September 2003, Jacob Brouwer resigned from the Board of Directors. Mr. Brouwer currently serves as an advisor to the Board. In September 2003, Slade Gorton was named to our Board of Directors. In December 2003, William Owens resigned from the Board of Directors. We currently have one vacancy on our Board of Directors, and the Board of Directors continues to seek, from time to time, additional board members to fill any vacancies who bring expertise in technology, commercialization, and distribution. Until the vacancy is filled, our Board of Directors will consist of the members who are elected at the Annual Meeting to serve until their successors are duly elected and qualified at the next annual meeting of shareholders, unless the director resigns or by reason of death or other cause is unable to serve in the capacity of director. Proxies cannot be voted for a greater number of persons than the number of nominees named.

If any nominee is unable to stand for election, the shares represented by all valid proxies will be voted for the election of such substitute nominee as the Board of Directors may recommend. All of the nominees are currently directors of the Company. The Company is not aware that any nominee is or will be unable to stand for election.

Proxies received from shareholders, unless directed otherwise, will be voted FOR the election of the nominees listed below. THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" ALL OF THE NOMINEES NAMED BELOW AS DIRECTORS OF THE COMPANY.

Set forth below are the name, position held and age of each of the nominees for director of the Company. The principal occupation and recent employment history of each of the nominees are described below, and the number of shares of common stock beneficially owned by each nominee as of April 23, 2004, is set forth on pages 18 and 19.

Under the terms of the Exchange Program, the Company granted new options to Named Executive Officers to purchase an aggregate of 857,008 of the Company's common stock.

In 1997, Mr. Rutkowski received options to purchase up to an aggregate of 340,000 shares of common stock for service to the Company through December 31, 2001, and Mr. Raisig received options to purchase up to an aggregate of 136,000 shares of common stock for service to the Company through December 31, 2000. In connection with the extension of their employment agreements, in April 2000, Mr. Rutkowski was granted options to purchase up to 300,000 shares of common stock for services to the Company during the period January 1, 2002, through December 31, 2004; Mr. Willey was granted options to purchase up to 72,000 shares of common stock for services to the Company during the period January 1, 2003, through December 31, 2003; and Mr. Raisig was granted options to purchase up to 204,000 shares of common stock for services to the Company during the period January 1, 2001, through December 31, 2003.

issued 242,040, 86,628, 142,210, and 69,454 options to Messrs. Rutkowski, Willey, Raisig, and Veeraraghavan, respectively. These grants were issued within the 1996 Plan. The conditions of these options issued are the same as those under the 1996 Plan, except for vesting. Vesting of Messrs. Rutkowski, Willey, and Raisig options occurred with the first 25% vesting on the grant date and the remainder vesting 25% on December 31, 2001, 25% on March 31, 2002, and 25% on June 30, 2002. ### **Employment Agreements**

Effective October 1, 1997, the Company entered into an employment agreement with Mr. Rutkowski. Under the employment agreement, Mr. Rutkowski receives a base salary and an annual cash performance bonus in an amount determined annually by the Compensation Committee of the Board of Directors ("Compensation Committee"). Mr. Rutkowski also is entitled to all benefits offered generally to the Company's employees. The Compensation Committee set Mr. Rutkowski's base salary for 2003 at \$353,000. In April 2000, the Compensation Committee extended the term of his employment agreement to December 31, 2004. Upon termination without cause prior to a change of control of the Company, Mr. Rutkowski will be entitled to a severance payment of the greater of his current base salary, from the date of termination to December 31, 2004, or his current base salary for one year. Upon a termination following a change of control of the Company, Mr. Rutkowski will be entitled to a severance payment equal to the sum of three times his current base salary and the average cash performance bonus he received in the three preceding calendar years.

The Company's majority owned subsidiary, Lumera, and Mr. Rutkowski have entered into a consulting arrangement pursuant to which Mr. Rutkowski will provide Lumera financial advisory services. The arrangement provides for a retainer of up to \$15,000 and fees of up to \$200,000 in the event Lumera successfully completes specified transactions.

### **Executive Loan Plans**

The Company previously adopted two loan plans under which Richard F. Rutkowski, Stephen Willey, and Richard Raisig were able to borrow funds from the Company. At the end of each year, the Company will forgive the interest that accrued under the loans if the executive remains employed by the Company. In 2003, the Company forgave \$95,632, \$29,865, and 37,749 of interest for Messrs. Rutkowski, Willey, and Raisig, respectively. No additional loans have been made under either the Executive Option Exercise Note Plan or the Executive Loan Plan since July 2002, and the Company does not intend to make any additional loans under these plans. The Company also has no plans to forgive the principal balance outstanding of the lines of credit. For additional details regarding loan balances and terms, see "Certain Relationships and Related Transactions" on page 25.

### **Certain Tax Considerations Related to Executive Compensation**

As a result of Section 162(m) of the Internal Revenue Code of 1986, as amended, in the event that compensation paid by the Company to the Named Executive Officers in a year were to exceed an aggregate of \$1,000,000, the Company's deduction for such compensation could be limited to \$1,000,000.

### **Report On Executive Compensation For 2003 By The Compensation Committee**

#### ***Executive Compensation Philosophy***

The Compensation Committee of the Board of Directors is comprised of four Independent Directors. The Compensation Committee is responsible for evaluating compensation levels and compensation programs for executives and for making appropriate compensation awards for executive management.

The executive compensation program of the Company is designed to attract, retain and motivate executive officers capable of leading the Company to meet its business objectives. These objectives include creating and preserving strong financial performance, positioning the Company in markets and industry segments offering long-term growth opportunities, enhancing long term shareholder value and ensuring the survival of the

Company. The Compensation Committee's philosophy is for the Company to use compensation policies and programs that align the interests of executive management with those of the shareholders and to provide compensation programs that incentivize and reward both the short and long-term performance of the executive officers based on the success of the Company in meeting its business objectives. The accomplishment of these objectives is measured against conditions prevalent in the industry in which the Company operates.

### *Executive Compensation Components*

The available forms of executive compensation include base salary, incentive bonus awards, and stock options. Performance of the Company is a key consideration. However, the Company's executive compensation policy recognizes that stock price is only one measure of performance, and given industry business conditions and the long-term strategic direction and goals of the Company, it may not necessarily be the best current measure of executive performance. Therefore, the Compensation Committee also considers the Company's achievement of business objectives when determining executive compensation.

*Base Salary.* Base salaries for executive officers are set at levels believed by the Compensation Committee to be sufficient to attract and retain qualified executive officers based on the stage of development of the Company and the market practices of other companies. A change in base salary of an executive officer is based on an evaluation of the performance of the executive, prevailing market practices and of the performance of the Company as a whole. In determining base salaries, the Compensation Committee not only considers the short term performance of the Company, but also the success of the executive officers in developing and executing the Company's strategic plans, developing management employees and exercising leadership in the development of the Company.

*Incentive Bonus.* The Compensation Committee believes that a portion of the total cash compensation for executive officers should be based on the Company's success in meeting its short term performance objectives and contributions by the executive officers that enable the Company to meet its long term objectives, and has structured the executive compensation program to reflect this philosophy. This approach creates a direct incentive for executive officers to achieve desired short term corporate goals that also further the long term objectives of the Company, and places a significant portion of each executive officer's annual compensation at risk.

*Stock Options.* The Compensation Committee believes that equity participation is a key component of the Company's executive compensation program. Stock options are awarded by the Compensation Committee to executive officers primarily based on their responsibilities and expected contributions to the Company's growth and development and marketplace practices. These awards are designed to attract and retain executive officers and to motivate them to enhance shareholder value by aligning the financial interests of executive officers with those of shareholders.

In November 2002, the Company offered to exchange most of its outstanding options to purchase common stock for new options scheduled to be granted on or after June 11, 2003. The Company undertook this offer because a considerable number of employees, including certain executive officers, held stock options with exercise prices that were significantly greater than the then current trading price for common stock of the Company. With exercise prices greater than existing trading prices, a significant number of the options no longer

effectively provided the motivation and retention benefits that they were intended to provide. In June 2003, the Company issued options to purchase 1,731,825 shares of Microvision common stock as part of its November 2002 option exchange offer. All regrant options were granted from the remaining available securities under the shareholder approved 1996 Plan.

As of December 31, 2003, there were non-plan options to purchase a total of 397,000 shares of Microvision common stock outstanding. 386,000 of these were options approved by the Board of Directors and issued in October 2001, with an exercise price in excess of the fair value of Microvision common stock on the date of grant. The October 2001 options have a \$15.00 exercise price and vest 25% on the grant date and 25% at six-month intervals thereafter. The remaining 11,000 non-plan options were granted at fair value on the date of grant and vest 25% at each annual anniversary date of the grant.

All non-plan options are non-qualified options with 10 year terms granted to non-executive employees. The options are administered by the Compensation Committee of the Board of Directors or its authorized agents. Options surrendered, exchanged for another option, canceled or terminated without having been exercised in full will again be available for issuance by the Company. The options are not transferable other than by will or the laws of descent and distribution. Each option is exercisable during the lifetime of the optionee only by such optionee, upon its vest date and thereafter through the expiration date, subject to the termination of employment provisions. Following termination of employment by the Company other than for cause, resignation in lieu of dismissal, disability or death, an option holder may exercise options, vested as of the date of termination, within three months before the options will automatically expire, and any unvested options will automatically expire upon the termination date. The number and class of shares covered by the options and the exercise price per share shall be proportionately adjusted for any change in the number of issued shares of common stock of the Company resulting from a stock split, stock dividend or consolidation of shares or any like capital stock adjustment. In the event of a merger, consolidation or plan of exchange to which the Company is a party or a sale of all or substantially all of the Company's assets, the Board of Directors may elect to treat the options in one of the following ways: (i) outstanding options would remain in effect in accordance with their terms; (ii) outstanding options would be converted into options to purchase stock in the surviving or acquiring corporation in the transaction; or (iii) outstanding options would be exercised within a period determined by the Board of Directors prior to the consummation of the transaction, after which time the options automatically expire. The Board may accelerate the vesting of the options so they are exercisable in full.

In August 2000, the Company issued two non-plan warrants to purchase an aggregate of 200,000 shares of Microvision common stock to two consultants in connection with entering into certain consulting agreements

with the Company. Subsequently, one of the consultants was elected to the Board of Directors by shareholders. The warrants were fully outstanding as of December 31, 2003. The warrants have an exercise price of \$34.00 per share and are exercisable prior to their expiration in August 2010. As of the date of grant, all but 25,000 of the underlying shares of common stock issuable to each consultant upon exercise of the warrants were subject to lock-up restrictions that prevent the holder from transferring such shares. The number of shares subject to the lock-up restrictions is reduced by 25,000 for each consultant on each June 7 subsequent to the grant date. Rather than issue shares of common stock upon exercise of the warrants, the Company may elect to redeem the warrants if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrants are transferable upon prior written approval of the Company. The Company cannot unreasonably withhold such approval with respect to transfers of warrants to purchase at least 10,000 shares that are not subject to the lock-up restrictions. If the Company terminates the consulting agreement due to the consultant's failure to provide consulting services during the first three years of the agreement, the consultant must return to the Company a pro-rata portion of the 75,000 warrants initially subject to the lock-up restrictions based on the number of calendar days remaining in the initial three year period. The number, class and price of securities for which the warrants may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share will be proportionately adjusted if outstanding shares of the Company's common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has a warrant outstanding to purchase 50,000 shares of Microvision common stock that was issued in April 2000 in exchange for equity placement services by a non-employee. The warrant was issued fully vested, has an exercise price of \$53.00 per share and is exercisable prior to its expiration in April 2005. Rather than issue shares of common stock upon exercise of the warrant, the Company may elect to redeem the warrant if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrant is not transferable without prior written approval of the Company. The number, class and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has three warrants outstanding to purchase an aggregate of 24,500 shares of Microvision common stock issued in exchange for equity placement services by a non-employee. The first warrant was issued fully vested in January 1999 for 25,000 shares, of which 12,000 shares remain outstanding, with an exercise price of \$12.50 per share and is exercisable prior to its expiration in January 2004. The second warrant was issued fully vested in July 1999 for 6,250 shares with an exercise price of \$16.00 per share and is exercisable prior to its expiration in July 2004. The third warrant was issued fully vested in June 2000 for 6,250 shares with an exercise price of \$19.20 per share and is exercisable prior to its expiration in June 2005. Rather than issue shares of common stock upon exercise of the warrants, the Company may elect to redeem the warrants if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrants are not transferable without prior written approval of the Company. The number, class and price of

securities for which the warrants may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has five warrants outstanding to purchase an aggregate of 20,425 shares of Microvision common stock. These warrants are the remainder resulting from a subdivision of a warrant that was issued to purchase 32,695 shares of common stock in April 1999 in exchange for equity placement services by a non-employee. The warrants were issued fully vested, have an exercise price of \$20.32 per share and are exercisable prior to their expiration in April 2004. Rather than issue shares of common stock upon exercise of the warrants, the Company may elect to redeem the warrants if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrants are not transferable without prior written approval of the Company. The number, class and price of securities for which the warrants may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holders to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holders had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has a warrant outstanding to purchase 11,938 shares of Microvision common stock that was issued in October 2001 in exchange for equity placement services by an unrelated professional services firm. The warrant was issued fully vested, has an exercise price of \$14.62 per share and is exercisable prior to its expiration in October 2004. Any whole number of shares of common stock may be purchased prior to the expiration date by surrendering the warrant certificate and presenting a purchase form to the Company with either (i) the full amount of funds received by the Company by wire transfer or (ii) if the resale of the shares issuable upon exercise of the warrants is not registered as of one year from the date the warrant was issued, an election on the purchase form choosing to receive a lower number of shares of common stock per a "cashless exercise" procedure. The warrant and shares of common stock issuable upon exercise of the warrant are not saleable or transferable unless either (i) they first shall have been registered under the Securities Act of 1933, as amended (the "Act"), or (ii) the Company is first furnished with an opinion of legal counsel, satisfactory to the Company, that the transfer is exempt from registration requirements of the Act. The number of shares of common stock issuable upon exercise and the exercise price per share shall all be proportionately adjusted where the Company effects a subdivision or combination of its outstanding shares of common stock or pays a stock dividend on its common stock, in order to, as nearly as practicable, preserve the percentage of the outstanding equity of the Company that the warrant is exercisable for as well as the purchase price for such percentage. If any reorganization, recapitalization, consolidation or merger, reclassification, partial or complete liquidation in which the common stock of the Company is converted into or exchanged for securities, cash or other property occurs, the warrant holder will receive, upon the exercise of the warrants, the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in the Company's capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants. Under certain circumstances, the warrant holder has specific rights to acquire securities of a publicly traded acquiring company upon exercise of its warrants.

The Company has a warrant outstanding to purchase 4,907 shares of Microvision common stock that was issued in December 2000 in exchange for equity placement services by a non-employee. The warrant was issued fully vested, has an exercise price of \$61.13 per share and is exercisable prior to its expiration in April 2005. Rather than issue shares of common stock upon exercise of the warrant, the Company may elect to redeem the warrant if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrant is not transferable without prior written approval of the Company. The number, class and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has two warrants outstanding to purchase an aggregate of 70,000 shares of Microvision common stock that were issued in September 2003 to a third party for services. The first warrant for 60,000 shares has an exercise price of \$7.50 per share and vests in three equal tranches. The first tranche vests on the issue date, the second and third tranches vest three and six months following the issue date, respectively. The second warrant for 10,000 shares has an exercise price of \$12.00 per share and vests six months after the issue date. The Company may cancel unvested tranches or the second warrant prior to their respective vest dates if it determines in good faith, and notifies the holder, that it is not satisfied with the holder's performance under the agreement. Vested warrants are exercisable prior to their expiration in September 2007. The warrant holder may transfer any portion or all of the warrant shares by delivering the original warrant certificate and a form of assignment to the Company. The number and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. Where the outstanding shares of common stock are divided into a greater number of shares, combined into a smaller number of shares, or a stock dividend is paid on the common stock, the exercise price per share shall be proportionately adjusted by the ratio of common shares outstanding immediately before and after the transaction. In the event of a change in the common stock from a merger, consolidation, reclassification, tender offer or exchange offer, or partial or complete liquidation, the holder will be entitled to receive, upon the exercise of the warrants, the same amount and kind of securities, cash or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of warrants.

## AUDIT COMMITTEE REPORT

### **Role of the Audit Committee**

The Audit Committee operates under a written charter adopted by the Board of Directors. The Audit Committee's primary role is to assist the Board of Directors in its general oversight of the Company's financial reporting, internal controls, and audit functions. The Audit Committee provides advice, counsel and direction to management and the auditors on the basis of the information it receives and discussions with management and the auditors. The Audit Committee is also responsible for overseeing the engagement and independence of the Company's independent auditors.

Among other matters, the Audit Committee monitors the activities and performance of the Company's external auditors, including the audit scope, external audit fees, auditor independence matters and the extent to which the independent auditor may be retained to perform non-audit services. The Audit Committee and the Board of Directors have ultimate authority and responsibility to select, evaluate and, when appropriate, replace the Company's independent auditor. The Audit Committee also reviews the results of the external audit work with regard to the adequacy and appropriateness of the Company's financial, accounting and internal controls. Management and independent auditor presentations to and discussions with the Audit Committee also cover various topics and events that may have significant financial impact or are the subject of discussions between management and the independent auditor. In addition, the Audit Committee generally oversees the Company's internal financial controls and financial disclosure procedures.

### **Membership and Meetings**

The Audit Committee is composed of three non-employee directors (Messrs. Cowell, Lack, and Reimer), each of whom is an "Independent Director" under the rules of the Nasdaq National Market governing the qualifications of audit committees. The Audit Committee held five meetings during the fiscal year ended December 31, 2003.

### **Audit Committee Financial Expert**

The "audit committee financial expert" designated by our Board is Col. Richard A. Cowell (Ret.), an Independent Director. Col. Cowell holds a degree in accounting and has served for six years as Chair of the Company's Audit Committee. During his twenty-five years of service in the United States Army, Col. Cowell oversaw and actively supervised various complex governmental projects that involved government accounting with a breadth and level of complexity comparable to accounting issues raised by the Company's financial statements, including issues relating to estimates, accruals, and reserves. Since retiring from the Army, Col. Cowell has served as a principal at Booz Allen Hamilton, where he provides consulting services relating to significant government projects and grants which involve significant and complex accounting issues.

### **Review of the Company's Audited Financial Statements**

The Audit Committee has reviewed and discussed the audited consolidated financial statements of the Company for the fiscal year ended December 31, 2003 with the Company's management and management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles. The Audit Committee has discussed with PricewaterhouseCoopers LLP, the Company's independent auditors for the fiscal year ended December 31, 2003, the matters required to be discussed by Statement of Auditing Standards No. 61, as amended (Communication with Audit Committees). The Audit Committee also reviewed with the independent auditors their judgments as to the quality and the acceptability of the Company's accounting principles and such other matters as are required to be discussed with audit committees under generally accepted accounting standards.

---

## Table of Contents

The Audit Committee received from PricewaterhouseCoopers LLP the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) and discussed with the firm its independence. Based on the review and discussions noted above, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in the Charter of the Audit Committee, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2003 for filing with the Securities and Exchange Commission.

### **Limitations on Role and Responsibilities of Audit Committee and Use and Application of Audit Committee Report**

Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors, PricewaterhouseCoopers LLP, are responsible for auditing those financial statements. The Audit Committee is responsible for monitoring and reviewing these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Audit Committee members are not employees of the Company and are not, and do not represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's financial statements. The Audit Committee's oversight does not provide the Audit Committee with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that PricewaterhouseCoopers LLP is in fact "independent."

This report of the Audit Committee shall not be deemed to be incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference.

The Audit Committee pre-approves all audit services and all permitted non-audit services by the independent auditors. The Audit Committee has delegated the authority to take such action between meetings to the Audit Committee chairman, who reports the decisions made to the full Audit Committee at its next scheduled meeting.

The Audit Committee evaluates whether the Company's use of the independent auditors for permitted non-audit services is compatible with maintaining the independence of the independent auditors. The Audit Committee's policies prohibit the Company from engaging the independent auditors to provide any services relating to bookkeeping or other services related to accounting records or financial statements, financial information systems design and implementation, appraisal or valuation services, fairness opinions or contribution-in-kind reports, actuarial services, or internal audit outsourcing services unless it is reasonable to conclude that the results of these services will not be subject to audit procedures. The Audit Committee's policies completely prohibit the Company from engaging the independent auditors to provide any services relating to any management function, expert services not related to the audit, legal services, broker-dealer, investment adviser, or investment banking services or human resource consulting.
