Our Company

Overview

MicroVision is a global developer and supplier of lidar hardware and software solutions focused primarily on automotive lidar and advanced driver-assistance systems, or ADAS, markets where we can deliver safe mobility at the speed of life. We offer a suite of light detection and ranging, or lidar, sensors and perception and validation software to automotive original equipment manufacturers, or OEMs, for ADAS and autonomous vehicle, or AV, applications, as well as to complementary markets for non-automotive applications including industrial, robotics and smart infrastructure. Our long history of developing and commercializing the core components of our lidar hardware and related software, combined with the experience of the team we acquired from Ibeo Automotive Systems, or Ibeo, with automotive-grade qualification, gives us a compelling advantage as a development and commercial partner.

Founded in 1993, MicroVision, Inc. is a pioneer in laser beam scanning, or LBS, technology, which is based on our patented expertise in micro-electromechanical systems, or MEMS, laser diodes, opto-mechanics, electronics, algorithms and software and how those elements are packaged into a small form factor. Throughout our history, we have combined our proprietary technology with our development expertise to create innovative solutions to address existing and emerging market needs, such as augmented reality microdisplay engines; interactive display modules; consumer lidar components; and, most recently, automotive lidar sensors and software solutions for the automotive market.

In January 2023, we acquired certain strategic assets of Germany-based Ibeo, which was founded in 1998 as a lidar hardware and software provider. Ibeo developed and launched the first lidar sensor to be automotive qualified for serial production with a Tier 1 automotive supplier and that is currently available in passenger cars by premium OEMs. Ibeo developed software solutions, including perception and validation software, which are also used by premium OEMs. In addition, Ibeo sold its products for non-automotive uses such as industrial, smart infrastructure and robotics applications.

For the automotive market, our integrated solution combines our MEMS-based dynamic-range lidar sensor and perception software, to be integrated on our custom application specific integrated circuit, or ASIC, targeted for sale to premium automotive OEMs and Tier 1 automotive suppliers. Our ADAS solution is intended to leverage edge computing and custom ASICs to enable our hardware and perception software to be integrated into an OEM’s ADAS stack.

In addition to our dynamic-range and long-range MAVIN sensor and perception software solution for the automotive market, our product suite includes our short-range flash-based MOVIA lidar sensor, for automotive and industrial applications, including smart infrastructure, robotics, and other commercial segments. Also, our validation software tool, the MOSAIK suite, is used by OEMs and other customers including Tier 1s for validating vehicle sensors for ADAS and AV applications. The tool includes software that

automates the manual data classification or annotation process, significantly reducing the time and resources required by OEMs to validate their ADAS and AV systems.

In the recent past, we developed micro-display concepts and designs for use in head-mounted augmented reality, or AR, headsets and developed a 1440i MEMS module supporting AR headsets. We also developed an interactive display solution targeted at the smart speakers market and a small consumer lidar sensor for use indoors with smart home systems.

To date, we have been unable to secure the customers at the scale needed to successfully launch our products. We have incurred substantial losses since inception, incurred a significant loss during the fiscal year ended December 31, 2023 and expect to incur a significant loss during the fiscal year ended December 31, 2024.

Corporate Information

We were founded in 1993 as a Washington corporation and reincorporated in 2003 under the laws of the State of Delaware. Our principal office is located at 18390 NE 68th Street, Redmond, WA 98052 and our telephone number is 425-936-6847. We maintain a website at www.microvision.com, where general information about us is available. We do not incorporate the information on our website into this prospectus supplement or the accompanying prospectus and you should not consider it part of this prospectus supplement or the accompanying prospectus.

Convertible Note

On October 14, 2024, we entered into a Securities Purchase Agreement, or the Purchase Agreement, pursuant to which we agreed to sell and issue to the Selling Stockholder senior secured convertible notes in the aggregate principal amount of up to \$75,000,000. On October 23, 2024, we issued the Convertible Note to the Selling Stockholder in the aggregate principal amount of \$45,000,000, or the Principal Amount. Upon satisfaction of additional conditions set forth in the Purchase Agreement, we may issue additional senior secured convertible notes to the Selling Stockholder in the aggregate principal amount of up to \$30,000,000 at subsequent closings. The shares of common stock underlying any subsequently issued senior secured convertible notes will be registered in a future registration statement. The Convertible Note bears zero coupon and matures on October 1, 2026. The Convertible Note ranks senior to all of our outstanding and future indebtedness, and is secured by a first priority perfected security interest in all of our bank and securities accounts, now owned and hereafter created or acquired.

The Selling Stockholder will have the option to partially redeem (i) up to \$1,925,000 on the first day of each month beginning on and including January 1, 2025 and ending on and including March 1, 2025 and (ii) up to \$3,850,000 on the first day of each month beginning on and including April 1, 2025 and ending on and including October 1, 2026.

The Convertible Note will be optionally convertible by the Selling Stockholder, subject to certain limitations as described below. If the Selling Stockholder elects to convert the Convertible Note with respect to the Initial Principal Amount, which is a portion of the Principal Amount equal to \$12,500,000, the conversion price for such Initial Principal Amount will be an amount equal to (i) \$1,000 divided by (ii) the "First Conversion Rate," which is an amount equal to one hundred ten percent (110%) of a fraction whose numerator is \$1,000 and whose denominator is the lesser of (A) \$1.5960 and (B) ninety percent (90%) of the Nasdaq Minimum Price (as defined in Nasdaq Rule 5635(d)) as of the effective date of this registration statement, subject to customary anti-dilution adjustments. If the Selling Stockholder elects to convert the Convertible Note with respect to any Principal Amount not constituting the Initial Principal Amount, the conversion price will be an amount equal to (i) \$1,000 divided by (ii) the "Second Conversion Rate," which is an amount equal to 626.5664 shares of common stock per \$1,000 Principal Amount.

If the issuance of Shares requires approval by our stockholders to satisfy Nasdaq Listing Rule 5635(d)(2), until the requisite stockholder approval is obtained, in no event will the number of shares of our common stock issuable upon conversion or otherwise pursuant to the Convertible Note exceed 42,692,019 shares in the aggregate. We do not expect such stockholder approval to be required in connection with the issuance of the Shares. The number of shares registered hereby represents the maximum amount of shares that could be issued pursuant to the Convertible Note absent stockholder approval. If we elect to issue additional senior secured convertible notes pursuant to the Purchase Agreement, stockholder approval may be required.

The conversion of the Convertible Note is subject to certain conditions, including that the Selling Stockholder remains within the Beneficial Ownership Limitation (as defined below).

Subject to certain conditions, we can require the Selling Stockholder to convert the Convertible Note, or a Forced Conversion, at any time if, for the immediately preceding 20 consecutive trading days, the stock price has closed at or above \$2.3940. The conversion rate for a Forced Conversion will be the same as the conversion price which would then be applicable for an optional conversion by the Selling Stockholder described above.

The Convertible Note may not be converted into shares of our common stock if such conversion would result in the Selling Stockholder and its affiliates beneficially owning an aggregate of in excess of 4.99% of the then-outstanding shares of our common stock, provided that such ownership limitation may be (i) increased by the Selling Stockholder to no greater than 9.99% upon 61 days' notice and (ii) decreased immediately by the Selling Stockholder upon notice (such limitation is referred to as the Beneficial Ownership Limitation).

The Convertible Note provides for certain events of default, such as our failure to make timely payments under the Convertible Note and failure to timely comply with the reporting requirements of the Exchange Act. The Purchase Agreement and Convertible Note also contain affirmative and negative covenants, including limitations on incurring additional indebtedness, the creation of additional liens on our assets, and entering into investments, as well as a minimum liquidity requirement (for any date prior to the later of May 1, 2025 and the date of the Authorized Share Increase (as defined in the Purchase Agreement), \$30 million and thereafter, as of any date, the greater of (i) \$30 million less the sum of (1) twenty five percent (25%) of the unrestricted net cash proceeds received by us from Equity Issuances (as defined in the Convertible Note) consummated since the issue date of the Convertible Note, which proceeds shall be available to be used for general corporate and working capital purposes and shall not be subject to any clawbacks or other repayment covenants or obligations or held in a blocked account or otherwise subject to any restrictions in use, plus (2) fifty percent (50%) of the aggregate Principal Amount converted into Common Stock) and a cash burn requirement (on the last calendar date of each calendar month beginning with the calendar month ended October 31, 2024, each, a Cash Burn Measurement Date, our Available Cash (as defined in the Convertible Note) on the Cash Burn Measurement Date shall be greater than or equal to (i) our cash and cash equivalents on the Cash Burn Reference Date (as defined in the Convertible Note), less (ii) \$20 million).

Pursuant to the Purchase Agreement, we agreed to prepare and file with the SEC this registration statement covering the resale of the Shares within the timeframe set forth in the Purchase Agreement, and to use commercially reasonable efforts to cause this registration statement to be declared effective within the timeframe set forth in the Purchase Agreement. Additionally, we agreed to prepare and file a proxy statement with the SEC to seek stockholder approval at our next annual meeting of stockholders (and in any event prior to June 30, 2025) to amend our certificate of incorporation to increase our authorized common stock by an additional 75,000,000 shares.

Use of proceeds:	We will not receive any proceeds from the sale of the Shares by the Selling Stockholder.
Risk factors:	Investing in our common stock involves a high degree of risk. See “ <i>Risk Factors</i> ” and other information contained in this prospectus and incorporated by reference before deciding to invest in shares of our common stock.

The number of shares of our common stock to be outstanding after this offering is based on 219,018,180 shares outstanding as of November 4, 2024 and excludes, as of that date, the following:

- 666,058 shares of common stock issuable upon the exercise of outstanding options, of which 666,058 were exercisable at a weighted average exercise price of \$1.43 per share under our 2022 Incentive Plan, as amended, or the Incentive Plan;
- 12,655,588 shares of common stock underlying unvested and/or deferred stock awards; and

5

RISK FACTORS

You should carefully consider the specific risks set forth under the caption “Risk Factors” in our most recent annual report on Form 10-K and quarterly report on Form 10-Q, each as amended or supplemented, which are incorporated by reference in this prospectus, as the same may be amended, supplemented or superseded by our subsequent quarterly or annual reports or other filings, including filings after the date hereof, with the SEC under the Exchange Act. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks were to occur, our business, financial condition or results of operations would likely suffer. In that event, the trading price of our common stock could decline, and you could lose all or part of your investment.

Risks Related to Our Common Stock and this Offering

Our stock price has fluctuated in the past, has recently been volatile and may be volatile in the future, and as a result, investors in our common stock could incur substantial losses.

Our stock price has fluctuated in the past, has recently been volatile and may be volatile in the future. During the 12 months prior to the date of this prospectus, our common stock has traded at a low of \$0.83 and a high of \$2.78. We may continue to experience sustained depression or substantial volatility in our stock price in the foreseeable future unrelated to our operating performance or prospects. For the year ended December 31, 2023, we incurred a loss per share of \$0.45.

- As a result of this volatility, investors may experience losses on their investment in our common stock. The market price for our common stock may be influenced by many factors, including the following:
 - investor reaction to our business strategy;
 - the success of competitive products or technologies;
 - strategic alternatives;
 - the timing and results of our development efforts with respect to our lidar sensors and ADAS solutions;
 - changes in regulatory or industry standards applicable to our technologies;
 - variations in our or our competitors’ financial and operating results;
 - developments concerning our collaborations or partners;
 - developments or disputes with any third parties that supply, manufacture, sell or market any of our products;
 - developments or disputes concerning patents or other proprietary rights, including patents, litigation matters and our ability to obtain patent protection for our products;
 - actual or perceived defects in any of our products, if commercialized, and any related product liability claims;
 - our ability or inability to raise additional capital and the terms on which we raise it;
 - declines in the market prices of stocks generally;
 - trading volume of our common stock;
 - sales of our common stock by us or our stockholders;
 - general economic, industry and market conditions; and
 - other events or factors, including war, terrorism and other international conflicts, public health issues including health epidemics or pandemics, such as the COVID-19 outbreak, and natural disasters such as fire, hurricanes, earthquakes, tornados or other adverse weather and climate conditions, whether occurring in the United States or elsewhere.

Since the stock price of our common stock has fluctuated in the past, has been recently volatile and may be volatile in the future, investors in our common stock could incur substantial losses. In the past, following periods of volatility in the market, securities class-action litigation has often been instituted against companies. Such litigation, if instituted against us, could result in substantial costs and diversion of management’s attention and resources, which could materially and adversely affect our business, financial condition, results of operations and growth prospects. There can be no guarantee that our stock price will remain at current levels or that future sales of our common stock will not be at prices lower than those sold to investors.

6

Additionally, securities of certain companies have recently experienced significant and extreme volatility in stock price due to short sellers of shares of common stock, known as a “short squeeze.” These short squeezes have caused extreme volatility in both the stock prices of those companies and in the market, and have led to the price per share of those companies to trade at a significantly inflated rate that is disconnected from the underlying value of the company. Many investors who have purchased shares in those companies at an inflated rate face the risk of losing a significant portion of their original investment, as in many cases the price per share has declined steadily as interest in those stocks have abated. While we have no reason to believe our shares would be the target of a short squeeze, there can be no assurance that we will not be in the future, and you may lose a significant portion or all of your investment if you purchase our shares at a rate that is significantly disconnected from our underlying value.

You will experience further dilution if we issue additional securities in future fundraising transactions.

We are generally not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. If we issue additional common stock, or securities convertible into or exchangeable or exercisable for common stock (including the additional \$30,000,000 aggregate principal amount of senior secured convertible notes which we could issue to the Selling Stockholder pursuant to the Purchase Agreement), our stockholders, including investors who purchase shares of common stock in this offering, could experience additional dilution, and any such issuances may result in downward

pressure on the price of our common stock.

Sales of shares of our common stock by the Selling Stockholder may cause our stock price to decline.

As of November 4, 2024, we had 219,018,180 shares of common stock outstanding. Sales of substantial amounts of our shares of common stock in the public market by the Selling Stockholder, or the perception that those sales may occur, could cause the market price of shares of our common stock to decline and impair our ability to raise capital through the sale of additional shares of our common stock.

We do not currently intend to pay dividends on our common stock, and any return to investors is expected to come, if at all, only from potential increases in the price of our common stock.

At the present time, we intend to use available funds to finance our operations. Accordingly, while payment of dividends rests within the discretion of our board of directors, no cash dividends on our common shares have been declared or paid by us and we have no intention of paying any such dividends in the foreseeable future. Any return to investors is expected to come, if at all, only from potential increases in the price of our common stock.

Risks Related to the Convertible Note

There are risks associated with our outstanding Convertible Note, and any additional convertible notes issuable under the Purchase Agreement, that could adversely affect our business and financial condition.

As of November 15, 2024, we had \$45,000,000 of outstanding indebtedness under the Convertible Note. Pursuant to the Purchase Agreement, we can incur up to an aggregate of \$75,000,000 million by issuing additional senior secured convertible notes to the Selling Stockholder (up to an additional \$30,000,000 additional aggregate principal amount), subject to certain limitations. The terms of any additional senior secured convertible notes issued under the Purchase Agreement would be similar to those under the Convertible Note.

The Convertible Note provides for certain events of default, such as our failing to make timely payments under the Convertible Note and failing to timely comply with the reporting requirements of the Exchange Act. The Purchase Agreement and the Convertible Note also contain customary affirmative and negative covenants, including limitations on incurring additional indebtedness, the creation of additional liens on our assets, and entering into investments, as well as a minimum liquidity requirement described in “*Summary—Convertible Note*” above.

Our ability to remain in compliance with the covenants under the Convertible Note depends on, among other things, our operating performance, competitive developments, financial market conditions and stock exchange listing of our common stock, all of which are significantly affected by financial, business, economic and other factors. We are not able to control many of these factors. Accordingly, our cash flow may not be sufficient to allow us to pay principal on the Convertible Note and any additional convertible notes issued under the Purchase Agreement or meet our other obligations under the Purchase Agreement. Our level of indebtedness under the Purchase Agreement could have other important consequences, including the following:

- We may need to use a substantial portion of our cash flow from operations to pay principal on the Convertible Note and any additional convertible notes issued under the Purchase Agreement, which would reduce funds available to us for other purposes such as working capital, capital expenditures, potential acquisitions and other general corporate purposes;
- We may be unable to refinance our indebtedness under the Purchase Agreement or to obtain additional financing for working capital, capital expenditures, acquisitions, or general corporate purposes;
- We may be unable to comply with financial and other covenants in the Convertible Note, which could result in an event of default that, if not cured or waived, may result in acceleration of the Convertible Note and any additional convertible notes issued under the Purchase Agreement and would have an adverse effect on our business and prospects, could cause us to lose the rights to our intellectual property, and could force us into bankruptcy or liquidation;
- The conversion of the Convertible Note and any additional convertible notes issued under the Purchase Agreement could result in significant dilution of our common stock, which could result in significant dilution to our existing stockholders and cause the market price of our common stock to decline; and
- We may be more vulnerable to an economic downturn or recession and adverse developments in our business.

There can be no assurance that we will be able to manage any of these risks successfully.

Our obligations to the Selling Stockholder under the Convertible Note, and any additional senior secured convertible notes, are secured by a security interest in all of our bank and securities accounts, now owned and hereafter created or acquired, and if we default on those obligations, the Selling Stockholder could foreclose on our bank and securities accounts.

Our obligations under the Convertible Note, and any additional senior secured convertible notes, and the related transaction documents, are secured by a security interest in all of our bank and securities accounts, now owned and hereafter created or acquired. As a result, if we default on our obligations under the Convertible Note, or additional senior secured convertible notes, the collateral agent on behalf of the Selling Stockholder could foreclose on the security interests and liquidate some or all of our bank and securities accounts, which would harm our business, financial condition and results of operations and could require us to reduce or cease operations and investors may lose all or part of your investment.

USE OF PROCEEDS

We are registering the Shares on behalf of the Selling Stockholder, to be offered and sold by the Selling Stockholder from time to time, and we will not receive proceeds from the sale of the Shares from time to time by the Selling Stockholder.

We have agreed to pay all costs, expenses and fees relating to the registration of the Shares covered by this prospectus. These may include, without limitation, all registration and filing fees, and fees and expenses of our counsel and accountants. The Selling Stockholder will pay any underwriting discounts and expenses incurred for brokerage, accounting, tax or legal services or any other expenses incurred in disposing of the Shares covered hereby.

DESCRIPTION OF CAPITAL STOCK

Our Amended and Restated Certificate of Incorporation, as amended, authorizes us to issue 310,000,000 shares of common stock, \$0.001 par value per share, and 25,000,000 shares of preferred stock, \$0.001 par value per share. As of November 4, 2024, there were 219,018,180 shares of common stock, and no shares of preferred stock, outstanding.

Common Stock. All outstanding common stock is, and any stock issued under this prospectus will be, duly authorized, fully paid and nonassessable. Subject to the rights of the holders of our outstanding preferred stock, holders of common stock:

- are entitled to any dividends validly declared;
- will share ratably in our net assets in the event of a liquidation; and
- are entitled to one vote per share.

The common stock has no conversion rights. Holders of common stock have no preemption, subscription, redemption, or call rights related to those shares.

Equiniti Trust Company, LLC is the transfer agent and registrar for our common stock.

Preferred Stock. The Board of Directors has the authority, without further action by the shareholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of such series. The issuance of preferred stock could adversely affect the voting power of holders of our common stock and the likelihood that such holders will receive dividend payments and payments upon liquidation may have the effect of delaying, deferring or preventing a change in control of MicroVision, which could depress the market price of our common stock. If we offer preferred stock, the terms of that series of preferred stock will be set forth in the prospectus supplement relating to that series.

SELLING STOCKHOLDER

The shares of Common Stock that may be offered and sold by the Selling Stockholder are those issuable to the Selling Stockholder upon conversion of the Convertible Note. For additional information regarding the issuance of the Convertible Note, see “Summary—Convertible Note” above. We are registering the resale of such Shares in order to provide the Selling Stockholder with freely tradable securities.

Based upon information provided by the Selling Securityholder, none of the Selling Stockholder nor any of its affiliates, officers, directors or principal equity holders has held any position or office or has had any material relationship with us within the past three years.

Pursuant to the terms of the Convertible Note, the Convertible Note may not be converted into shares of common stock if such conversion would result in the Selling Stockholder owning an aggregate of in excess of 4.99% of the then-outstanding shares of common stock, provided that such ownership limitation may be (i) increased by the Selling Stockholder to no greater than 9.99% upon 61 days’ notice and (ii) decreased immediately by the Selling Stockholder upon notice (such limitation the “Beneficial Ownership Limitation”). The Selling Stockholder may sell all, some or none of its shares in this offering. See “Plan of Distribution.”

The table below lists the Selling Stockholder and other information regarding the beneficial ownership (as determined under Section 13(d) of the Exchange Act, and the rules and regulations thereunder) of the Shares held by the Selling Stockholder. The second column lists the number of shares of common stock beneficially owned by the Selling Stockholder, as of November 4, 2024, after giving effect to the Beneficial Ownership Limitation. The percentages of common stock beneficially owned and being offered are based on 219,018,180 shares of our common stock outstanding as of November 4, 2024. The table below assumes that no Subsequent Closings (as defined in the Purchase Agreement) have occurred.

The fourth column lists the Shares that are being registered by this prospectus by the Selling Stockholder, without regard to the Beneficial Ownership Limitation.

We cannot advise you as to whether the Selling Stockholder will in fact convert the Convertible Note or sell any or all Shares issued pursuant to such conversion. The fifth and sixth columns assume the sale of all of the Shares offered by the Selling Stockholder pursuant to this prospectus, without regard to the Beneficial Ownership Limitation.

Each of High Trail Special Situations LLC and Sander Gerber disclaims beneficial ownership over these securities. The address of the Selling Stockholder is c/o Hudson Bay Capital Management LP, 28 Havemeyer Place, 2nd Place, Greenwich, CT 06830.

PLAN OF DISTRIBUTION

We are registering the Shares to permit the resale of the Shares by the Selling Stockholder from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale of the Shares by the Selling Stockholder. We will bear all fees and expenses incident to our obligation to register the Shares.

The Selling Stockholder, which, as used herein, includes its respective pledgees, assignees, donees, transferees and successors-in-interest, may, from time to time, sell any or all of the Shares covered hereby on the Nasdaq Global Market or any other stock exchange, market or trading facility on which the Shares are traded or in private transactions. These sales may be at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at fixed prices or negotiated prices. The Selling Stockholder may use any one or more of the following methods when selling the Shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholder to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholder may also sell securities under Rule 144 or any other exemption from registration under the Securities Act, if available, rather than under this prospectus.

There can be no assurance that the Selling Stockholder will sell all or any of the Shares.

Broker-dealers engaged by the Selling Stockholder may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholder (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2121, and in the case of a principal transaction a markup or markdown in compliance with FINRA Rule 2121.

In connection with the sale of the Shares or interests therein, the Selling Stockholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the Shares in the course of hedging the positions they assume. The Selling Stockholder may also sell securities short and deliver these Shares to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these Shares. The Selling Stockholder may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of the Shares, which Shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

Any broker-dealers or agents that are involved in selling the Shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the Shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

We are required to pay certain fees and expenses incurred by us incident to the registration of the Shares. We have agreed to indemnify the Selling Stockholder against certain losses, claims, damages and liabilities, including liabilities under the Securities Act. We agreed to keep this prospectus effective until all of the Shares have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect or the Shares are otherwise freely tradeable under Rule 144. The Shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the Shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the Shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholder will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholder or any other person.

Item 15. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law, or DGCL, provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful. Section 145 further provides that a corporation similarly may indemnify any such person serving in any such capacity who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor, against expenses actually and reasonably incurred in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or such other court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

Section 102(b)(7) of the DGCL permits a corporation to include in its certificate of incorporation a provision eliminating or limiting the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of a director (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL (relating to unlawful payment of dividends and unlawful stock purchase and redemption) or (iv) for any transaction from which the director derived an improper personal benefit.

The Company's Amended and Restated Certificate of Incorporation provides that the Company's directors shall not be liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director except to the extent that exculpation from liabilities is not permitted under the DGCL as in effect at the time such liability is determined. The Company's Amended and Restated Certificate of Incorporation further provides that the Company shall indemnify its directors and officers to the fullest extent permitted by the DGCL.

The Company has a liability insurance policy in effect which covers certain claims against any officer or director of the Company by reason of certain breaches of duty, neglect, errors or omissions committed by such person in his or her capacity as an officer or director.

For the undertaking with respect to indemnification, see Item 17 herein.

Item 17. Undertakings

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering amount set forth in the "Calculation of Filing Fee Tables" in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that paragraphs (1)(i), (1)(ii) and (1)(iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Exchange Act that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser:

(i) If the registrant is relying on Rule 430B:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

II-3

(ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to

the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(6) That, for purposes of determining any liability under the Securities Act:

(i) Each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(ii) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions set forth in Item 15 above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(iii) The information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in the form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of the registration statement as of the time it was declared effective.

(iv) Each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
