Up to \$42,000,000  
**MicroVision, Inc.**  
Common Stock

We have entered into a sales agreement with Deutsche Bank Securities Inc., Mizuho Securities USA LLC and Craig-Hallum Capital Group LLC, or the Sales Agents, on March 5, 2024, as amended on June 12, 2026, relating to the sale of up to \$150,000,000 of shares of our common stock, \$0.001 par value per share, or the Sales Agreement. Subject to the terms and conditions of the Sales Agreement, we may offer and sell shares of our common stock from time to time through the Sales Agents, acting as our agents, or directly to the Sales Agents, acting as principals.

Our shares are quoted on The Nasdaq Global Market under the symbol “MVIS.” On June 11, 2026, the last reported sale price of our common stock on The Nasdaq Global Market was \$0.36 per share.

Sales of our common stock, if any, under this prospectus may be made in sales deemed to be “at the market” equity offerings as defined in Rule 415 promulgated under the Securities Act of 1933, as amended, or the Securities Act, including sales made directly on or through The Nasdaq Global Market, the existing trading market for our common stock, sales made to or through a market maker other than on an exchange or otherwise, in negotiated transactions at market prices prevailing at the time of sale or at prices related to such prevailing market prices, and/or any other method permitted by law. The Sales Agents are not required to sell a certain number of shares or dollar amount of our common stock. The Sales Agents will use commercially reasonable efforts to sell on our behalf all of the shares of common stock requested to be sold by us, consistent with their normal trading and sales practices, on mutually agreed terms between the Sales Agents and us. There is no arrangement for funds to be received in any escrow, trust or similar arrangement.

The Sales Agents will each be entitled to a commission equal to 3% of the gross sales price per share sold by such Sales Agent under the Sales Agreement. In connection with the sale of the common stock on our behalf, each Sales Agent may be deemed to be an “underwriter” within the meaning of the Securities Act, and the compensation of the Sales Agent may be deemed to be underwriting commissions or discounts.

Under the terms of the Sales Agreement, we may also sell shares of our common stock to a Sales Agent, acting as principal, at a price per share to be agreed upon at the time of sale. If we sell shares to a Sales Agent as principal, we will enter into a separate terms agreement with that Sales Agent.

### Our Company

MicroVision is defining the next generation of lidar-based perception solutions for automotive, industrial, and security & defense markets. We deliver integrated hardware and software solutions designed for real-world performance, automotive-grade reliability, and economic scalability. Our diverse portfolio of lidar sensors, with both short- and long-range lidar solutions, feature solid-state sensors with varying wavelengths, advanced sensor architectures, design-to-cost engineering, and open software solutions.

Our solutions enable advanced driver assistance systems, or ADAS, and autonomy features for customers in a wide range of markets, including automotive, industrial, and security & defense. Target industrial sectors include robotics, automated warehouse, agriculture, and mining. Our integrated hardware and software solutions enable intelligent autonomous, active safety, and automation systems which depend on secure, cost-effective, and energy-efficient solutions. Our software has been developed in close collaboration with automotive customers and also has broad application in industrial, defense, and commercial vehicle sectors.

With engineering teams in the U.S. and Germany, we develop and supply integrated solutions, incorporating application software and processing data from differentiated sensor systems. Our extensive experience in developing and productizing core lidar hardware and software components, along with our expertise in edge computing, positions us as a valuable commercial partner capable of delivering high-value, low-power products.

Founded in 1993, MicroVision, Inc. is a pioneer in laser beam scanning, or LBS, technology, which is based on our patented technology in micro-electromechanical systems, or MEMS, laser diodes, opto-mechanics, electronics, algorithms and software and how those elements are packaged into a small form factor. Throughout our history, we have combined our proprietary technology with our development expertise to create innovative solutions to address existing and emerging market needs, such as augmented reality microdisplay engines; interactive display modules; consumer lidar components; and, more recently, lidar sensors and software solutions for automotive, industrial, and security & defense markets.

In January 2023, we acquired certain strategic assets of Germany-based Ibeo Automotive Systems GmbH, which was founded in 1998 as a lidar hardware and software provider. Ibeo developed and launched the first lidar sensor to be automotive qualified for serial production with a premium, or Tier 1, automotive supplier and that is currently available in passenger cars by premium OEMs. Ibeo developed software solutions, including perception and validation software, also used by premium OEMs. In addition, Ibeo sold its products for non-automotive uses such as industrial, agriculture, smart infrastructure, and robotics applications.

In January 2026, we completed the acquisition of assets from Scantinel Photonics GmbH, based in Germany. Scantinel develops a unique lidar-on-chip solution, utilizing 1550nm frequency-modulated continuous wave, or FMCW, technology. Our 1550nm FMCW lidar solution has applications for long-range use cases across our target markets, with particularly compelling advantages for the commercial vehicle market.

In February 2026, we completed the strategic acquisition of assets primarily comprising the worldwide lidar business of Luminar Technologies, Inc. The acquired assets include the IRIS sensor, a 1550nm time-of-flight long-range lidar, and its next generation HALO sensor, built off the same architecture as IRIS but with improved performance and reduced size and cost. The acquisition also included SENTINEL, under development as a full-stack software platform supporting safety and autonomy applications for passenger vehicles and commercial trucks.

Our hardware solutions include a broad and multi-featured portfolio of lidar sensors, which can be integrated with our software or with our customers' software, targeted for sale to automotive OEMs and Tier 1 suppliers, industrial mobility and autonomy companies, and security & defense contractors. Our lidar sensors, all solid state, include MOVIA™, a flash-based short- to mid-range sensor; MAVIN™, a MEMS-based 905nm long-range sensor capable of small object detection; IRIS and HALO, each a 1550nm long-range sensor; and our Scantinel 1550nm long-range FMCW lidar. Our software stack has met the rigorous requirements of automotive qualification and incorporates advanced features, like localization and fusion. We also develop customer-specific application software, allowing expansion into a wide array of sectors.

In the recent past, we developed micro-display concepts and designs for use in head-mounted augmented reality, or AR, headsets and developed a 1440i MEMS module supporting AR headsets. This technology was integrated into products marketed to consumer and military sectors.

We have incurred significant losses since inception and we expect to continue to incur significant losses in the near term. We have funded our operations to date primarily through the sale of common stock, convertible preferred stock, warrants, the issuance of convertible debt and, to a lesser extent, from development contract revenues, product sales and licensing activities. See our Annual Report on Form 10-K for the fiscal year ended December 31, 2025, or the 2025 Form 10-K, incorporated by reference herein.

## NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and is subject to the safe harbor created by those sections. Such statements may include, but are not limited to, projections of revenues, income or loss, capital expenditures, plans for product development and cooperative arrangements, future operations, financing needs or plans of MicroVision, as well as assumptions relating to the foregoing. The words “anticipate,” “believe,” “estimate,” “expect,” “goal,” “may,” “plan,” “project,” “will,” and similar expressions identify forward-looking statements, which speak only as of the date the statement was made.

These forward-looking statements are not guarantees of future performance. Factors that could cause actual results to differ materially from those projected in such forward-looking statements include our ability to operate with limited cash or to raise additional capital when needed; market acceptance of our technologies and products or for products incorporating our technologies; the failure of our commercial partners to perform as expected under our agreements; our ability to identify parties interested in paying any amounts or amounts we deem desirable for the purchase or license of intellectual property assets; our or our customers’ failure to perform under open purchase orders; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards and develop partnership opportunities; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims; our ability to maintain our listing on The Nasdaq Stock Market; and other risk factors identified from time to time in the Company’s SEC reports, including the Company’s Annual Report on Form 10-K filed with the SEC. These factors are not intended to represent a complete list of the general or specific factors that may affect us. It should be recognized that other factors, including general economic factors and business strategies, may be significant, now or in the future, and the factors set forth in this prospectus may affect us to a greater extent than indicated. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.

## RISK FACTORS

*An investment in our securities involves a high degree of risk. You should carefully consider all of the information in this prospectus, including the risks and uncertainties described below, and all other information included or incorporated by reference in this prospectus, before you decide whether to purchase our securities. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks were to occur, our business, financial condition or results of operations would likely suffer. In that event, the trading price of our common stock could decline and you could lose all or part of your investment.*

### **Risks Related to our Common Stock and this Offering**

*We have broad discretion in the use of the net proceeds from this offering and may not use them effectively.*

Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not necessarily improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow, and could cause the price of our common stock to decline.

*Our stock price has fluctuated in the past, has recently been volatile and may be volatile in the future, and as a result, investors in our common stock could incur substantial losses.*

Our stock price has fluctuated in the past, has recently been volatile and may be volatile in the future. During the 12 months prior to the date of this prospectus, our common stock has traded at a low of \$0.36 and a high of \$1.50. We may continue to experience sustained depression or substantial volatility in our stock price in the foreseeable future unrelated to our operating performance or prospects. For the year ended December 31, 2025, we incurred a loss per share of \$0.35.

As a result of this volatility, investors may experience losses on their investment in our common stock. The market price for our common stock may be influenced by many factors, including the following:

- investor reaction to our business strategy;
- the success of competitive products or technologies;
- strategic alternatives;
- the timing and results of our development efforts with respect to our lidar sensors and ADAS solutions;
- changes in regulatory or industry standards applicable to our technologies;
- variations in our or our competitors' financial and operating results;
- developments concerning our collaborations or partners;
- developments or disputes with any third parties that supply, manufacture, sell or market any of our products;
- developments or disputes concerning patents or other proprietary rights, including patents, litigation matters and our ability to obtain patent protection for our products;
- actual or perceived defects in any of our products, if commercialized, and any related product liability claims;
- our ability or inability to raise additional capital and the terms on which we raise it;
- declines in the market prices of stocks generally;
- trading volume of our common stock;
- sales of our common stock by us or our stockholders;
- general economic, industry and market conditions; and
- other events or factors, including war, terrorism and other international conflicts, public health issues including health epidemics or pandemics, and natural disasters such as fire, hurricanes, earthquakes, tornados or other adverse weather and climate conditions, whether occurring in the United States or elsewhere.

Since the stock price of our common stock has fluctuated in the past, has been recently volatile and may be volatile in the future, investors in our common stock could incur substantial losses. In the past, following periods of volatility in the market, securities class-action litigation has often been instituted against companies. Such litigation, if instituted against us, could result in substantial costs and diversion of management's attention and resources, which could materially and adversely affect our business, financial condition, results of operations and growth prospects. There can be no guarantee that our stock price will remain at current levels or that future sales of our common stock will not be at prices lower than those sold to investors.

Additionally, securities of certain companies have recently experienced significant and extreme volatility in stock price due to short sellers of shares of common stock, known as a “short squeeze.” These short squeezes have caused extreme volatility in both the stock prices of those companies and in the market and have led to the price per share of those companies to trade at a significantly inflated rate that is disconnected from the underlying value of the company. Many investors who have purchased shares in those companies at an inflated rate face the risk of losing a significant portion of their original investment, as in many cases the price per share has declined steadily as interest in those stocks have abated. While we have no reason to believe our shares would be the target of a short squeeze, there can be no assurance that we will not be in the future, and you may lose a significant portion or all of your investment if you purchase our shares at a rate that is significantly disconnected from our underlying value.

***If you purchase the common stock sold in this offering, you will experience immediate and substantial dilution in your investment. You will experience further dilution if we issue additional equity securities in future fundraising transactions.***

Since the price per share of our common stock being offered is substantially higher than the net tangible book value per share of our common stock, you will suffer substantial dilution with respect to the net tangible book value of the common stock you purchase in this offering. Based on an assumed public offering price of \$0.36 per share, the last reported sale price of our common stock on June 11, 2026 on The Nasdaq Global Market, and our net tangible book value as of December 31, 2025, if you purchase shares of common stock in this offering, you will suffer immediate and substantial dilution of \$0.13 per share with respect to the net tangible book value of the common stock. See the section entitled “Dilution” elsewhere in this prospectus for a more detailed discussion of the dilution you will incur if you purchase common stock in this offering.

We are generally not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. If we issue additional common stock, or securities convertible into or exchangeable or exercisable for common stock, our stockholders, including investors who purchase shares of common stock in this offering, could experience additional dilution, and any such issuances may result in downward pressure on the price of our common stock.

***Future sales of shares by existing stockholders could cause our stock price to decline.***

Sales of a substantial number of shares of our common stock in the public market could occur at any time. These sales, or the perception in the market that the holders of a large number of shares of common stock intend to sell shares, could reduce the market price of our common stock.

As of May 28, 2026, we had outstanding options to purchase an aggregate of 602,258 shares of our common stock, of which all were exercisable at a weighted average exercise price of \$1.40 per share. The exercise of such outstanding options will result in further dilution of your investment. If our existing stockholders sell substantial amounts of our common stock in the public market, or if the public perceives that such sales could occur, this could have an adverse impact on the market price of our common stock, even if there is no relationship between such sales and the performance of our business.

***We do not currently intend to pay dividends on our common stock, and any return to investors is expected to come, if at all, only from potential increases in the price of our common stock.***

At the present time, we intend to use available funds to finance our operations. Accordingly, while payment of dividends rests within the discretion of our board of directors, no cash dividends on our common shares have been declared or paid by us and we have no intention of paying any such dividends in the foreseeable future. Any return to investors is expected to come, if at all, only from potential increases in the price of our common stock.

***The actual number of shares we will issue under the Sales Agreement, at any one time or in total, is uncertain.***

Subject to certain limitations in the Sales Agreements and compliance with applicable law, we have the discretion to deliver a placement notice to a Sales Agent at any time throughout the term of the Sales Agreement. The number of shares that are sold by a Sales Agent after delivering a placement notice will fluctuate based on the market price of our common stock during the sales period and limits we set with that Sales Agent. Because the price per share of each share sold will fluctuate based on the market price of our common stock during the sales period, it is not possible at this stage to predict the number of shares that will be ultimately issued.

***The common stock offered hereby will be sold in “at the market offerings,” and investors who buy shares at different times will likely pay different prices.***

Investors who purchase shares in this offering at different times will likely pay different prices, and accordingly may experience different levels of dilution and different outcomes in their investment results. We will have discretion, subject to market demand and the terms of the Sales Agreement, to vary the timing, prices and number of shares sold in this offering. In addition, subject to the final determination by our board of directors or any restrictions we may place in any applicable placement notice, there is no minimum or maximum sales price for shares to be sold in this offering. Investors may experience a decline in the value of the shares they purchase in this offering as a result of sales made at prices lower than the prices they paid.

## USE OF PROCEEDS

The amount of net proceeds from this offering will depend upon the number of shares of our common stock sold and the market prices at which they are sold. There can be no assurance that we will be able to sell any shares of our common stock under or fully utilize the Sales Agreement as a source of financing.

Except as described in any free writing prospectus that we may authorize to be provided to you, we currently anticipate that the net proceeds from the sale of the securities offered under this prospectus will be used for general corporate purposes, which may include, but are not limited to, working capital and capital expenditures.

Pending the application of the net proceeds, we expect to invest the proceeds in investment-grade, interest-bearing instruments or other securities.

Our management will have broad discretion in the application of the net proceeds, if any, from this offering, and the amounts and timing of our actual expenditures will depend on numerous factors, including those listed under the section titled "Risk Factors" in this prospectus and the documents incorporated by reference herein and therein. We therefore cannot estimate with certainty the amount of net proceeds to be used for the purposes described above. While we intend to spend the net proceeds of the offering as stated above, there may be circumstances where, for sound business reasons, a re-allocation of funds may be necessary or advisable.

## DILUTION

If you invest in our common stock, your interest will be diluted by an amount equal to the difference between the public offering price and the net tangible book value per share of common stock after this offering. We calculate net tangible book value per share by dividing our net tangible book value (total assets less intangible assets and total liabilities) by the number of outstanding shares of common stock.

Our net tangible book value at December 31, 2025 was \$55,516,000, or \$0.18 per share of common stock. After giving effect to the sale of shares of our common stock in the aggregate amount of \$42,000,000 at an assumed offering price of \$0.36 per share, the last reported sale price of our common stock on June 11, 2026 on The Nasdaq Global Market, and after deducting estimated commissions and estimated offering expenses, our as-adjusted net tangible book value at December 31, 2025 would have been \$96,250,000, or \$0.23 per share. This represents an immediate increase in as-adjusted net tangible book value of \$0.05 per share to existing shareholders and an immediate and substantial dilution of \$0.13 per share to new investors. The following table illustrates this per share dilution:

Assumed public offering price per share	\$	0.36
Net tangible book value per share at December 31, 2025	\$	0.18
Increase in net tangible book value per share attributable to this offering	\$	0.05
As-adjusted net tangible book value per share as of December 31, 2025, after giving effect to this offering	\$	0.23
Dilution per share to new investors in this offering	\$	0.13

The table above assumes, for illustrative purposes only, that an aggregate of 116,666,666 shares of our common stock are sold at an assumed offering price of \$0.36 per share, for aggregate gross proceeds of approximately \$42,000,000. The shares sold in this offering, if any, will be sold from time to time at various prices.

To the extent that any options are exercised, new options are issued under the Incentive Plan or 2025 Inducement Plan, or we otherwise issue additional shares of common stock in the future, there will be further dilution to new investors.

These calculations are based on 344,645,965 shares outstanding as of May 28, 2026 and excludes, as of that date, the following:

- 602,258 shares of common stock issuable upon the exercise of outstanding options, of which 602,258 were exercisable at a weighted average exercise price of \$1.40 per share under the Incentive Plan or a predecessor plan;
- 5,493,272 shares of common stock underlying unvested and/or deferred stock awards under the Incentive Plan or the 2025 Inducement Plan; and
- 17,819,690 shares of our common stock reserved for issuance pursuant to the Incentive Plan or the 2025 Inducement Plan.

## DESCRIPTION OF SECURITIES WE ARE OFFERING

We are offering up to \$42,000,000 of shares of our common stock.

Our Amended and Restated Certificate of Incorporation, as amended, authorizes us to issue 510,000,000 shares of common stock, \$0.001 par value per share, and 25,000,000 shares of preferred stock, \$0.001 par value per share. As of May 28, 2026, there were 344,645,965 shares of common stock, and no shares of preferred stock, outstanding.

*Common Stock.* All outstanding common stock is, and any stock issued under this prospectus will be, duly authorized, fully paid and nonassessable. Subject to the rights of the holders of our outstanding preferred stock, holders of common stock:

- are entitled to any dividends validly declared;
- will share ratably in our net assets in the event of a liquidation; and
- are entitled to one vote per share.

The common stock has no conversion rights. Holders of common stock have no preemption, subscription, redemption, or call rights related to those shares.

Equiniti Trust Company, LLC is the transfer agent and registrar for our common stock.

## PLAN OF DISTRIBUTION

We have entered into the Sales Agreement with the Sales Agents relating to the sale of shares of our common stock offered by this prospectus, from time to time through any of the Sales Agents acting as agents. Under this prospectus, in accordance with the terms of the Sales Agreement, we may sell shares of our common stock for an aggregate offering price of up to \$42,000,000. Sales of our shares of common stock, if any, under this prospectus will be made by any method that is deemed to be an “at the market offering” as defined in Rule 415 promulgated under the Securities Act, including sales made directly on or through The Nasdaq Global Market, the existing trading market for our common stock, sales made to or through a market maker other than on an exchange or otherwise, in negotiated transactions at market prices prevailing at the time of sale or at prices related to such prevailing market prices, and/or any other method permitted by law.

Each time we wish to issue and sell our shares of common stock under the Sales Agreement, we will notify a Sales Agent of the number of shares to be issued and sold, the dates on which such sales are anticipated to be made, any limitation on the number of shares to be sold in any one day and any minimum price below which sales may not be made. Once we have so instructed a Sales Agent, unless such Sales Agent declines to accept the terms of such notice, each Sales Agent has agreed to use their commercially reasonable efforts consistent with their normal trading and sales practices to sell such shares up to the amount specified on such terms. The obligations of the Sales Agents under the Sales Agreement to sell our shares of common stock are subject to a number of conditions that we must meet. The Sales Agents may engage in passive market making transactions in the shares of common stock on The Nasdaq Global Market in accordance with Regulation M under the Exchange Act. The Sales Agents may also trade in our common stock for their own accounts and for the accounts of any of their respective clients during the term of the Sales Agreement.

The settlement of the sales of shares between us and the Sales Agents will occur on the first trading day following the date on which such sales were made in return for payment of the net proceeds to us, unless otherwise specified in the applicable placement notice (or such earlier day as is industry practice for regular-way trading or required under Rule 15c6-1 under Exchange Act). Sales of our shares of common stock as contemplated in this prospectus will be settled through the facilities of The Depository Trust Company or by such other means as we and the Sales Agents may agree upon. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

Under the terms of the Sales Agreement, we may also sell shares of our common stock directly to a Sales Agent, acting as principal, at a price per share to be agreed upon at the time of sale. If we sell shares to a Sales Agent as principal, we will enter into a separate terms agreement with that Sales Agent, and we will describe such agreement in a separate prospectus supplement or pricing supplement.

We will pay each Sales Agent in an agency transaction a commission equal to 3% of aggregate gross proceeds we receive from the sale of our shares of common stock sold by such Sales Agent pursuant to the Sales Agreement. Any commissions, discount or other compensation to the Sales Agents with respect to a principal transaction will be set forth in the applicable terms agreement. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time. We have also agreed to reimburse the Sales Agents for the reasonable out-of-pocket expenses of the Sales Agents, including the reasonable fees and disbursements of legal counsel to the Sales Agents incurred in connection with this offering, in the amount of up to \$200,000 in the aggregate for the Sales Agreement, and for ongoing services in connection with the transactions contemplated under the Sales Agreement, in the amount of up to \$25,000 in the aggregate on a quarterly basis. We estimate that the total expenses for the offering, excluding any commissions payable to the Sales Agents under the terms of the Sales Agreement, will be approximately \$500,000. The remaining sale proceeds, after deducting any other transaction fees, will equal our net proceeds from the sale of such shares.

Each Sales Agent will provide written confirmation to us no later than the open of trading on The Nasdaq Global Market on the trading day immediately following each trading day on which our shares of common stock are sold under the Sales Agreement by such Sales Agent. Each confirmation will include the number of shares sold on that day, the proceeds to us (with an itemization of the deductions) and the commission payable to the Sales Agents with respect to such sales.

We will report in our filings with the SEC under the Exchange Act at least quarterly the number of shares of our common stock sold through the Sales Agents under the Sales Agreement and any terms agreement and the net proceeds received by us and the compensation paid by us from such sales.

In connection with the sale of our shares of common stock on our behalf, each of the Sales Agents may be deemed to be an “underwriter” within the meaning of the Securities Act, and the compensation of the Sales Agent will be deemed to be underwriting commissions or discounts. We have agreed to indemnify the Sales Agents against certain civil liabilities, including liabilities under the Securities Act. We have also agreed to contribute to payments the Sales Agents may be required to make in respect of such liabilities.

The offering of our shares of common stock pursuant to the Sales Agreement will terminate upon the earlier of (i) the issuance and sale of all shares of common stock subject to the Sales Agreement and (ii) the termination of the Sales Agreement by us and/or by each of the Sales Agents that are a party thereto.

This summary of the material provisions of the Sales Agreement does not purport to be a complete statement of its terms and conditions. A copy of the Sales Agreement will be filed as an exhibit to a Current Report on Form 8-K filed under the Exchange Act on the date hereof and is incorporated by reference in this prospectus.

Our common stock is listed on The Nasdaq Global Market and trades under the symbol “MVIS.” On June 12, 2026, we applied to transfer the listing of our common stock from The Nasdaq Global Market to The Nasdaq Capital Market. The transfer agent of our common stock is Equiniti Trust Company, LLC, located at 6201 15<sup>th</sup> Avenue, Brooklyn, New York.

The Sales Agents have performed, are currently performing and may in the future perform, various financial advisory and investment banking services for us in connection with our evaluation of potential strategic transactions, for which they received or will receive customary fees and expenses.
